

Genedata Ready-to-Run

Scale Up Your Data Analysis to Match Your Instrument

Genedata and BMG LABTECH™ have partnered to offer a Ready-to-Run integration, allowing direct analysis of BMG LABTECH data in Genedata Screener®.

The joint solution offers:

- ▶ High-quality, consistent results across experiments
- ▶ Single, easy-to-use integration for all assay formats
- ▶ Pre-defined data import
- ▶ Complete workflow support from start to finish

The integration ensures that data from BMG LABTECH instruments can easily be analyzed in Genedata Screener, using current and future software versions.

The Ready-to-Run integration covers:

- ▶ PHERAstar® FSX
- ▶ CLARIOstar®
- ▶ SPECTROstar® Nano
- ▶ Omega Series

Activate your Ready-to-Run integration:

Contact your Genedata Screener scientific account manager or your BMG LABTECH account manager.

If you have one solution and would like to add the other, contact:

Genedata Ready-to-Run

Genedata Ready-to-Run provides out-of-the-box integrations for complex screening technologies. The integrations require little to no configuration, are instrument specific, come with defined functionality, and are maintained by Genedata as part of a software license agreement.

Go to www.genedata.com/ready-to-run for the latest information on instruments integrated with Genedata Screener.

Genedata Screener® is part of the Genedata portfolio of advanced software solutions that serve the evolving needs of drug discovery, industrial biotechnology, and other life sciences.
