

# Genedata Ready-to-Run

## Scale Up Your Data Analysis to Match Your Instrument

Genedata and Creoptix offer a Ready-to-Run integration, allowing you to analyze data prepared with a Creoptix instrument in your Genedata Screener®.

The joint solution offers:

- ▶ Direct analysis of Grating-Coupled Interferometry in Genedata Screener
- ▶ Sample data association across systems and characterization techniques
- ▶ Reduced set-up and routine analysis times

The integration ensures that data from Creoptix instruments can easily be analyzed in Genedata Screener, using both current and future software versions.

The Ready-to-Run integration covers:

- ▶ Creoptix™ WAVE
- ▶ Creoptix™ WAVEdelta

## Activate your Genedata-Creoptix Ready-to-Run integration:

Contact your Genedata Screener scientific account manager or your Creoptix account manager.

## If you have one solution and would like to add the other, contact:

screener@genedata.com  
info@creoptix.com

## Genedata Ready-to-Run

Genedata Ready-to-Run provides out-of-the-box integrations for complex screening technologies. The integrations require little to no configuration, are instrument specific, come with defined functionality, and are maintained by Genedata as part of a software license agreement.

Go to [www.genedata.com/ready-to-run](http://www.genedata.com/ready-to-run) for the latest information on instruments integrated with Genedata Screener.

Genedata Screener® is part of the Genedata portfolio of advanced software solutions that serve the evolving needs of drug discovery, industrial biotechnology, and other life sciences.
