

Genedata Ready-to-Run

Scale Up Your Data Analysis to Match Your Instrument

Genedata and Labcyte™ offer a Ready-to-Run integration, allowing you to analyze data prepared with Labcyte equipment in Genedata Screener®.

The joint solution offers:

- ▶ Easy preparation and analysis of compound combination experiments
- ▶ Easy import of plate loading with multiple substances and concentrations per well

The integration ensures that all required information from Labcyte devices can be imported directly into Genedata Screener.

The Ready-to-Run integration covers:

- ▶ Echo® Liquid Handlers*
- ▶ Access™ Workstation*

*requires Echo Combination Screen Software

Activate your Genedata-Labcyte Ready-to-Run integration:

Contact your Genedata Screener scientific account manager or your Labcyte account manager.

If you have one solution and would like to add the other, contact:

screener@genedata.com
info-us@labcyte.com

Genedata Ready-to-Run

Genedata Ready-to-Run provides out-of-the-box integrations for complex screening technologies. The integrations require little to no configuration, are instrument specific, come with defined functionality, and are maintained by Genedata as part of a software license agreement.

Go to www.genedata.com/ready-to-run for the latest information on instruments integrated with Genedata Screener.

Genedata Screener® is part of the Genedata portfolio of advanced software solutions that serve the evolving needs of drug discovery, industrial biotechnology, and other life sciences.
