

Genedata Ready-to-Run

Scale Up Your Data Analysis to Match Your Instrument

Genedata and ThermoFisher® have partnered to offer a Ready-to-Run integration, allowing you to directly analyze your data in Genedata Screener®.

The joint solution offers:

- ▶ High-quality, consistent results across plates and experiments
- ▶ Complete workflow support from start to finish
- ▶ Direct integration with Thermo Store to import and display HCS features and images
- ▶ Maintained contrast stretching options, composite creation, and overlay displays

The integration ensures that data from ThermoFisher instruments can easily be analyzed in Genedata Screener, using current and future software versions.

The Ready-to-Run integration covers:

- ▶ Cellomics™ Store
(accessed via HCS Connect)

Activate your Genedata-ThermoFisher Ready-to-Run integration:

Contact your Genedata Screener scientific account manager or your ThermoFisher account manager.

If you have one solution and would like to add the other:

Email screener@genedata.com or go to www.thermoscientific.com/HCS to find your regional ThermoFisher contact.

Genedata Ready-to-Run

Genedata Ready-to-Run provides out-of-the-box integrations for complex screening technologies. The integrations require little to no configuration, are instrument specific, come with defined functionality, and are maintained by Genedata as part of a software license agreement.

Go to www.genedata.com/ready-to-run for the latest information on instruments integrated with Genedata Screener.

Genedata Screener® is part of the Genedata portfolio of advanced software solutions that serve the evolving needs of drug discovery, industrial biotechnology, and other life sciences.
