

# Genedata Ready-to-Run

## Extend Your Analysis Capabilities

Genedata has partnered with ChemAxon to offer an integration allowing you to directly import ChemAxon information into Genedata Screener®.

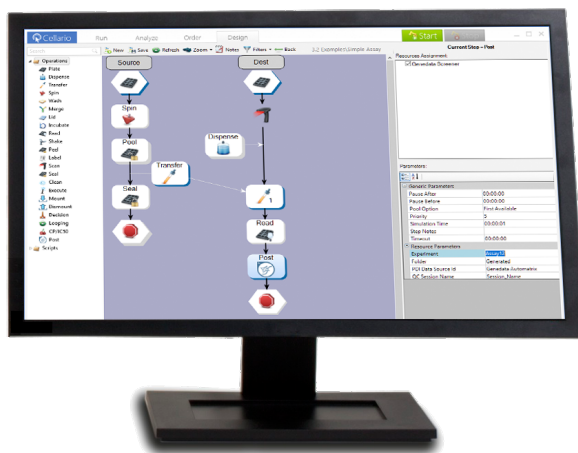

The joint solution offers:

- ▶ Decreased system implementation costs
- ▶ Improved workflow efficiency with fewer time-consuming steps
- ▶ Reduced errors with eliminated manual file handling

The integration ensures that information from ChemAxon can easily be accessed in Genedata Screener, using both current and future software versions.

The Ready-to-Run integration covers:

- ▶ Compound Registration

## Activate your ChemAxon Ready-to-Run integration:

Contact your Genedata Screener scientific account manager or your ChemAxon account manager.

## If you have one solution and would like to add the other, contact:

sales@chemaxon.com  
screener@genedata.com

## Genedata Ready-to-Run

Genedata Ready-to-Run provides out-of-the-box integrations for complex screening technologies. The integrations require little to no configuration, are instrument specific, come with defined functionality, and are maintained by Genedata as part of a software license agreement.

Go to [www.genedata.com/ready-to-run](http://www.genedata.com/ready-to-run) for the latest information on instruments integrated with Genedata Screener.

Genedata Screener® is part of the Genedata portfolio of advanced software solutions that serve the evolving needs of drug discovery, industrial biotechnology, and other life sciences.
